Education should be imparted with a view to the type of society that we wish to build. We are working for a modern democracy built on the value of human dignity and equality. These are only ideals: we should make them living forces. Our vision of the future should include these great principles.

Dr. Sarwapalli Radhakrishnan.

MISSION & VISION

We at Apex focus our dedication towards eliciting a fondness for learning and developing an indispensable set & attitudes, skills and knowledge that empower our learners to maximize their potential towards becoming versatile one. It is with this ambition that we work towards evolving an environment which includes social accountability, national pride, cultural and traditional values.

On this ethics rest the pillars of our foundation. Our mission statement, therefore, holds true when we say that-*Taking Your Career to New Heights.*

It is through this mission that we wish to realize our Vision..... that of molding our students into-

- Individual with exemplary behavior.
- Logical, rational, cultural and religious thinkers.
- Responsible national and global citizens.
- Exhibitors of social and environmental goodwill.
- Individuals with empathy towards one and all.
- Academically competent person.

Director's MESSAGE

Dear Parents, Guardians, Teachers, Staff, Students, and Well-wishers,

I am delighted to extend my heartfelt greetings to each one of you as we come together on the digital platform of **Apex School**.

As the Director of this esteemed institution, I take immense pride in leading a team of passionate educators and dedicated staff who are committed to providing the best possible educational experience to our students. Our mission is not merely to impart knowledge but to ignite a lifelong love for learning, foster creativity, and develop essential life skills that will empower our students to thrive in an ever-evolving world.

At **Apex School**, we firmly believe that every child is unique and possesses untapped potential waiting to be unleashed. As such, we strive to create a nurturing and inclusive environment that encourages curiosity and exploration, allowing each student to discover their strengths and passions.

Our approach to education is rooted in the understanding that academic excellence goes hand in hand with character development and values. We emphasize the importance of integrity, empathy, resilience, and compassion, molding our students into responsible global citizens who contribute positively to society.

As we embrace the possibilities of technology and innovation, we also cherish the importance of traditional values and human connections. Our classrooms are not just spaces for learning but places where minds are ignited, dreams are nurtured, and lasting memories are formed.

To our dedicated and exceptional faculty, I express my deep appreciation for your commitment and hard work. Your unwavering dedication to excellence and your passion for teaching play a pivotal role in shaping the future of our students.

To the parents and guardians, I extend my gratitude for your constant support and trust in our vision. Your involvement in your child's education and active participation in school activities strengthen the foundation of their success.

To the students, I encourage you to be curious, fearless in your pursuit of knowledge, and compassionate in your interactions. Remember that education is not just about grades but about developing a thirst for learning that lasts a lifetime

Best Regards,

Mr. En.D.K. Upadhyay

I am honoured to be the Superintendent of the **Apex School** and serve the students, staff, families and community. Over the past 14 years, Mountain View has been a second home for me and I am grateful to work with our dedicated Board of Education, administrators, teachers, classified and support staff as we continue to follow our District's mission of inspiring each student to succeed every day, and provide outstanding instruction, programs and support for our students and families.

Apex School remains committed to ensuring our school communities are healthy and connected and all students are receiving quality instruction and social emotional support that meets their needs. Our exceptional educators, supportive staff and students continue to display great flexibility, resilience and perseverance through the adversity brought on by the pandemic and provides our students with the curriculum, programs and leadership that inspires them to be lifelong learners.

Through positive collaboration our dedicated team educates each student at the highest level, as we strive to make a positive difference in the life of each student entrusted to us. I look forward to collaborating with you on this journey as we continue to serve our community and provide the very best experiences for all of our students.

Sincerely,
Mr Shailesh Mohan Pandey
Superintendent

PRINCIPAL'S MESSAGE

" I am really honoured and feel very privileged to function as the Principal of Apex School Apex School Let me take this opportunity to thank the Management, Apex School-Middle East for giving me the opportunity to serve the community here in Al Ain. We, at Apex School, ensure high quality education which motivates and empowers our students to be lifelong learners and the productive members of the society. At Apex School, education is not just the

amount of information that is put into a child's brain. Our education system is the one that cater the individual needs of our students

We want all our students to achieve their full potential. Our task is to make it possible and our mission is to provide a platform for the same.

Success for all students is ensured at our school by the delivery of an enriching, child centred, balanced and structured curriculum and a whole school focus on student welfare that focuses on the positive recognition of student achievements. Teachers at BPWS are highly qualified and experienced educators who are committed to supporting each student's learning experience through quality instruction and guidance that addresses the needs of the individual child. Teachers work to provide students with differentiated support that address each student's specific needs both academically and socially.

I, personally believe that an education system that develops the imagination of the child is richer than the one that does not. The imagination is where new ideas are created and progress becomes possible. "Imagination is more important than knowledge" because knowledge is about what we already know, whereas imagination is what moves individuals and cultures forward. Imagination leads to innovation. BPWS will surely give much importance to imaginative and play way methods, especially in Kindergarten.

BPWS do give high priority for our Student's safety. School also initiates the activities that actively promote safe and healthy lifestyle and contribute effectively to sustainability and conservation of our environment.

We firmly believe that the parents are their child's first and most important teacher. Parents play a vital role in the education of their children. We happily welcome all our parents to take an active role in the education of their children and to be the active participants in our school life. Get to know the staff, especially the child's teachers and assist where you can so we can work together in the interests of everyone. I am eager to work with our parent community in supporting their children in their education. We always strive to build strong parent teacher relationship which is very important for the academic success of our students.

I would like the parents to know that my door is always open to discuss any concerns, questions, or ideas you may have regarding your child's education. I welcome you all to an outstanding learning community where everyone is dedicated to a high standard of excellence.

We truly have a fantastic school with a supportive and involved parent community, dedicated and highly skillful staff, excellent resources and buildings and the most fantastic students to work with. We are very sure that with the help of all the stakeholders and with their continuous support, we will be able to take our school to the next highest level of excellence. At our end, we shall continue working with you for the best interests of our beloved students and our community at large.

My commitment to our community is to lead the school with enthusiasm and passion to enable us to reach our goals. Let us work together to make BPWS as the best school, it can be. We look forward to welcoming you to be part of our vibrant learning community.

"Let noble thoughts come to us from every side"

Pratima Tiwari

VICE PRINCIPAL'S MESSAGE

Albert Einstein said, "Education is not about learning of facts but training young minds to think." There is a big difference between cramming up facts and learning them so that they can be applied in productive ways. At Somerville, we try to work towards holistic development of our students by providing them the tools and experiences that encourage our students to think. The aim is to create empowered minds so that students are able to decide what is good for them, differentiate between right and wrong, choose opportunities that help build them up and enable them to live in harmony with all existence. As the new Vice Principal, I am delighted that the school's values align with my own personal values, including the importance of trust, respect, innovation and a sense of community.

One of our science laboratory assistants shared an experience with me. He was walking on a busy road one day when two girls ran to him and touched his feet. Mildly startled, and thinking it to be a case of mistaken identity, he was about to inform them of their mistake, when they identified themselves as former students of Somerville who were currently pursuing MD degree and wanted his blessings. That so perfectly embodies the character of our school; developing minds that grow up into enlightened human beings who achieve success yet are firmly grounded on earth. That is what true education is all about.

Recently, we received a letter of appreciation from Dr. Harsh Vardhan, the honorable minister of Environment, Forest and Climate Change, for the participation of the school towards making the Plantation Drive at Van Mahotsav in Delhi, NCR a success. The Eco Club of our school has been involved in tree plantation across the city even before the activity was made popular in schools. We boast of several green spaces that have been developed by our students and environment-related initiatives where our students have contributed to the surroundings. Parents often take pride in informing me about how their child corrects them when they litter in inappropriate places, use fire crackers, cross a traffic signal when it is red. Education imparted here is thus not confined to the class room alone but is moving beyond that. As a Chinese proverb very aptly says, "Tell me and I'll forget; show me and I may remember; involve me and I'll understand".

N.P. Singh
Apex School

CURRICULUM

Through a holistic approach towards learning we aim to provide our students with-

- Requisite knowledge and skills that every child has a right to learn.
- Learning environment enabling them to live in a balanced manner, but stretching enough to challenge them and meet their diverse needs.
- High level thinking skills which will help them tackle many of the moral, social and cultural issues which are part of growing up.
- An environment which allows interaction with peers and assists in development as a social system.

Co- CURRICULAR ACTIVITIES

School today is no longer confined to classroom instruction. Many of the most important lessons are those which students learn as a part of learning games, cross fertilization of ideas, competitions and collaborate work. Hand in hand with classroom education, such events provide the students with an opportunity to be the part of a broad spectrum of activities which promote the development of a "Complete Being" Some of these activities are-

Principal Sign & Stamp

Student's Signature

Guardian's Signature

Parents and guardians are earnestly requested

To fully cooperate with the school authorities concerning the formation and education of their children. We strongly recommend the parent / guardians to look in to their children's every evening and to see that lessons and home work assigned for the next day are neatly done.

The children should be encouraged to cultivate

Neatness habitually and slovenliness should be firmly disapproved of.

Parents are expected to show great respect and courtesy while dealing with the teachers or higher authorities like Principal or Manager.

These we can strongly suggest students should behave in a decent manner on their way to any form school. Students are responsible to the school authorities not only for their conduct in the school but also for the general behavior out side the school. Any report of objectionable conduct on the part of the students makes them liable for disciplinary action. The principal may punish an erring student in a manner suited to the offence. By detention after the class hours, or by expulsion from the school. With out justifying his/ her action.
